With Style ELEGANT

\*Condition: A comparison of body pressure distribution on the seat base and backrest while sitting with/without Style ELEGANT, using body pressure dispersion measuring equipment (MTG test results)  
\*Subject: 32-year old female  
\*Individual results may vary.

Beautifully designed to match any interior

Extensive support from the pelvis to the thoracic vertebrae helps you pursue a beautiful posture.

To create a proper posture, the pelvis should be stabilized and the spine should be supported from behind to form a natural "S" curve. More importantly, remember that the thoracic vertebrae tend to be rounded. Supporting the extensive area from the pelvis to the lumbar and thoracic vertebrae reduces the burden on the shoulders and hips, allowing you to pursue a beautiful posture.
